

# COVID-19 Update

Updated: 04/05/2020

MEDITERRANEAN LIFESTYLE

To our loyal client base,

As directed by Government we have moved into level 4 of the nationwide lock-down. For us, this means 30% of our manufacturing workforce can operate, which has begun today, 04/05/2020.

We have instituted a screening process, as well as the necessary sanitation and social distancing requirements as set out by Government. All staff are being transported by our own vehicles in order to reduce the risk associated with public transport.

Whilst we are permitted to manufacture, we are still not permitted to perform any installations or repairs on site until we reach level 2, or if the regulations change. Unfortunately, our sales staff are also unable to measure under level 4 but can quote based on measurements taken by yourself. We will continue to make the health of our staff and clients our number 1 priority.

We have several orders in various stages of production and have also provisioned for the end of lock-down by bringing in a large quantity of timber, paint and hardware. As such we are well set to continue with the manufacture of orders, be it at a much slower pace due to the 30% workforce restrictions.

All our components are sourced from local suppliers and as such we should have minimal supply chain issues. We will continue to support our local businesses as we come out of this unprecedented situation as supporting local is going to be more important than ever before.

Wishing you and your family all the strength through these uncharted waters.
